

# How has the SPT Supervision Course transformed lives?

## Connected

"The experience of becoming a Synergetic Play Therapist Supervisor has been a journey in deepening my relationship and attachment to myself and therefore to those around me. I feel better resourced and skilled to support play therapists in their work and their own journeys. **This course connected me to a community that I feel deeply privileged to be a part of. During a challenging time for our planet, I felt a connection to others that sustained me.**" - Katrina Bevelander

## Unexpected Growth

"I would highly recommend the "Becoming an SPT Supervisor" Course which takes a deeper dive into SPT principles. As with all SPT training, **we began the process of learning about one thing (supervision) and ended up also with the experience of profound personal growth and gaining a wonderful new community!**" - Helen Ritchie

## Development

"The SPT Supervisor Course was a nurturing and enriching experience. With each SPT training, the layers of application both personally and professionally continue to evolve. **SPT is truly a way of being in relationship on all levels, and applying it to professional supervision is again the missing link in developing an authentic, nurturing, empowering supervision relationship.**" - Katrina Bell

## Impactful

"The depth that SPT has allowed me to grow as a clinician, person, and supervisor is infinite. **Becoming an SPT Supervisor allows you to embody the core principles to help other clinicians grow in their professional development.**" - Natascha Lawrence

## More Testimonials

"This has been a valuable and meaningful part of my learning experience. **I cannot imagine doing this work without an SPT lens.**" - *Anna Bardi Sanaie*

**"Once again the Synergetic Play Therapy team went above and beyond.** This was an amazing learning and growth experience. I am a much better therapist and supervisor after completing the course. I feel more connected to the SPT community."

- *David Anderson*

"Very supportive learning experience. The student must be self motivated to complete tasks and watch videos. **It brought the SPT learning experience deeper - aha moments which were many.** :)" - *Rose LaPiere*

"Learning to be an SPT supervisor is a major goal in learning to take on this work in the world. **I found it to be a very supportive and nurturing process that led to growth in my practice as a supervisor and clinician.**" - *Jessica Kimak*

"I was glad to have the support as I continue to grow in this next step of SPT as a Supervisor. **I'm grateful for Lisa's encouragement and wisdom!**" - *Lauren Forsythe*

**"It was a wonderful growth experience!"** - *Johanna Simmons*

**"I would recommend this course to anyone looking to become a supervisor.** The small group format was supportive and helpful in understanding course material and integrating the knowledge into my own practice. Thank you!" - *Gemma Taylor*
