

The Business of Play Therapy-Let's Get Congruent

Welcome! This course is designed to give you the framework and the psychology to go after and manifest the dreams and ideas in your heart.

The three things needed to manifest a vision:

- 1. Clarity and congruency of the vision
- 2. Have a road map
- 3. Manage your psychology and feedback along the way

Hours spent on developing a congruent and inspired vision and action steps is more valuable than working in the vision itself.
