

Introduction to Synergetic Play Therapy: Webinar and Video Viewing Tips

Webinars-

You are responsible for attending the 3 one-hour live webinars. This is your time to feel part of the community, to interact and ask questions directly to Lisa. If for some reason you are not able to attend the live webinars, the webinar recording will be posted to this site within 24 hours of the recording.

We use zoom.us as our platform. For best quality, please use a high internet speed connection or plugged in with a landline. You will be asked to turn your camera on, so please be prepared to do so. We want you to be a part of the live webinars.

Video Courses-

You are responsible for watching all of the videos in this course. Since this course builds on itself, you will not be able to watch the next video until you have watched the previous one and completed the quiz/rated the objectives. This includes the webinars.

It is important to watch the class videos before you meet with your consultant for the month. We suggest watching within 2 weeks of the release, so plan accordingly! Reminder that you have 2 months following the last video release to watch the videos.
