

Introduction to Synergetic Play Therapy®: Webinar and Video Viewing Tips

Webinars

You are responsible for attending the 3 one-hour live webinars during this course. This is your time to feel part of the community, to interact, and ask questions directly to Lisa. If for some reason you are not able to attend the live webinars, the webinar recording will be posted to your course site within 24 hours of the live session.

We use Zoom.us as our live webinar platform. Each live webinar will have its own unique Zoom Meeting link that will be provided to you in the corresponding lesson. For best video quality, please use a high internet speed connection or plug directly in through a landline. You will also be asked to turn your camera on, so please be prepared to do so. We hope to see you at all scheduled live webinars!

Video Courses

You are also responsible for watching all of the pre-recorded videos in this course. Due to each lesson in this course building on the one before, you will not be able to progress to the next lesson of the course without first completing the previous lesson, including the completion of the lesson "quiz" and rating the class objectives.

It is important to watch the class videos *before* you meet with your Synergetic Play Therapy Consultant each month. We suggest watching within 2 weeks of the video release date, so plan accordingly! Reminder that you will have 2 months following the final video release date to go back and watch the videos before you lose access to the course.

For any questions or should you need any assistance please contact info@synergeticplaytherapy.com.
